

The working group FAIRSEXWORK comprises sex workers, owners of salons and publishers of erotic advertisement. The group wants to promote sex work that is respectful of the interest of all those implicated. Therefore it issues the following recommendations:

1. Top priorities in sex work are the wellbeing of everybody implicated and the just distribution of the gains.
2. Sex workers are free to choose the services they want to offer. They know the risks each of these services implies.
3. To avoid being infected with HIV or with another sexually transmitted infection (STI) sex workers and their clients abide to the following rules:
  - No sperm in the mouth
  - No cunnilingus during menstruation
  - No french kissing
  - Avoid oral sex without condom
  - No vaginal or anal penetration without condom
  - No anilingus without dental dam
4. It is highly recommended to vaccinate against hepatitis B.
5. It is highly recommended to take an HIV-test every six months and / or after a high risk contact, along with being tested for hepatitis B, syphilis, gonorrhea and chlamydiae.
6. Massage parlours and other places offering erotic services open their doors to prevention teams.

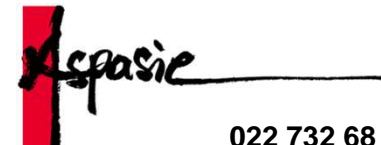

Abiding to these recommendations and using the logo FxW.ch in their advertising, all those professionally active in the sex business state:

*I work according to the FxW recommendations;  
I favor clients who appreciate this way of working;  
I offer sex work and*

- hygiene,
- health,
- safety and
- pleasure.
